

## **Nurse Call – Igeacom solution**

**ASPEN technologies** provides the Igeacom solution, manufactured by IgeaCare Systems Inc., which integrates all the different features and functions of a traditional nurse call device into one system. The Igeacom device and peripheral devices connect residents to staff in real time. The wall unit, push button, pull cord, wireless pull cord and dome light work together for total in-room monitoring. Programmable buttons provide today's menus or a list of activities for the day. The pendant provides mobile security.

The Igeacom is designed to use the power of PBX based technology. The capacity of each PBX can be tailored to the size of the facility and the number of residents and staff. Private Branch Telephone Exchange System, the PBX, is basically a telephone communication switch that seamlessly integrates all telephone communications.

The Igeacom solution enables **ASPEN technologies** to provide facilities a single source installation, administration and accounting solution that saves time and money. Our focus on the healthcare sector helps clients provide the highest levels of care, with maximum cost savings and minimal downtime.

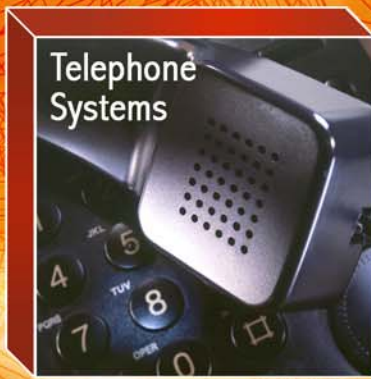

The benefits of our solution include: One point of contact for all communications in building (nurse call, door security, telephone system, wireless and local / long distance service); Lower costs for local and long distance services; Solution providers and carriers manage the project from initial design and implementation to end user support for communication solutions and services; Revenue generating models and cost recovery solutions; State-of-the-art telecommunication switching equipment and investment protection; State-of-the-art Emergency Response system; Private wireless network integrated with all communication equipment including the emergency response and telephone systems; Call accounting software to track all nurse calls and response times; Call tracking for optimizing staff performances and accessibility of staff using wireless telephones; Hosted residential and business telephone services.

All Igeacom devices have a one year warranty against manufacturer defect. The Igeacom wireless pull cord battery and wireless pendant battery have a five year warranty.

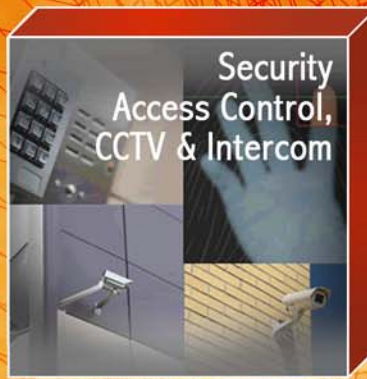

**Warranty:** **ASPEN technologies** offers a limited lifetime workmanship warranty.
